

## Scott Rooftop Bike Carrier

Rhino-Rack Australia would like to introduce another bike carrier to its' already popular & extensive range of Rooftop Bike Carriers. The Scott bike carrier is stable and simple to use with a quick attachment for easy fitting to most crossbars without the need for tools. This carrier will handle frame diameters from 30mm up to 80mm, while the wheels rest in adjustable holders that are fastened with strong securing straps. The Scott bike carrier is lockable to the roof rack as well as securing the bike to the carrier. Suitable for bikes weighing up to 17kg, the Scott Rooftop Bike Carrier once again shows that Rhino-Rack can help carry the load.
