

Introducing the latest product release from Rhino-Rack for the VE Commodore Sedan. Our new roof rack is vehicle specific and designed to give you greater flexibility for your load carrying needs. Our market leading removable pad mount design incorporates the factory mounting points and sits neatly with the trim and finish of today's modern vehicles to enhance their smooth sleek lines.

This new system gives you the flexibility of two crossbar styles to suit your own individual taste and load carrying needs. The load carrying capacity, as determined by the manufacturer, is 75kg for this vehicle.

Once again Rhino-Rack has a load carrying solution for every occasion.
