

Introducing the latest product release from Rhino-Rack for the current model Toyota Kluger. Our new Speciality Trackmount System is vehicle specific and designed to give you greater flexibility for your load carrying needs. This system gives you a load carrying capacity of 75kg with a sleek factory look that follows the contour of the Kluger and fits neatly into the roof channel of this vehicle. This vehicle specific system gives you the flexibility of three styles of crossbars to suit your own individual tastes and load carrying needs.
